Aims and Scope
Transactions on Graph Data and Knowledge (TGDK) is an Open Access journal that publishes original research articles and survey articles on graph-based abstractions for data and knowledge, and the techniques that such abstractions enable with respect to integration, querying, reasoning and learning. The scope of the journal thus intersects with areas such as Graph Algorithms, Graph Databases, Graph Representation Learning, Knowledge Graphs, Knowledge Representation, Linked Data and the Semantic Web. Also inscope for the journal is research investigating graph-based abstractions of data and knowledge in the context of Data Integration, Data Science, Information Extraction, Information Retrieval, Machine Learning, Natural Language Processing, and the Web.

The journal is Open Access without fees for readers nor for authors (also known as Diamond Open Access).

▪ Contents

◼ **Preface**

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut mattis elementum fermentum. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas. Nulla sapien magna, bibendum in dictum sed, egestas vel purus. Pellentesque id ornare lacus. Pellentesque justo elit, sodales a fringilla vitae, gravida sed elit. Etiam turpis eros, tincidunt sit amet tempor sed, gravida quis eros. Mauris et nunc enim. Ut congue rhoncus odio vitae lacinia. Nunc placerat est eu eros dignissim ac tristique nisi placerat. Fusce et hendrerit justo. Nunc feugiat pulvinar nunc ac tincidunt. Donec eu pharetra metus. Cras malesuada ante accumsan purus dignissim euismod. Curabitur risus ante, aliquet ut suscipit eget, vulputate non ligula. Nullam eleifend malesuada est, nec adipiscing sapien eleifend eget. Vestibulum fringilla diam id felis sagittis aliquet. Maecenas sed metus vel dui vulputate pretium et id lacus. Ut eget libero augue, ut aliquet orci. Integer sed nunc id massa interdum imperdiet. Nunc ut consequat eros.

Morbi hendrerit dapibus augue. Proin sed adipiscing ipsum. Ut vulputate ultricies diam id dictum. Nunc pharetra imperdiet sodales. Morbi convallis massa vitae justo adipiscing nec congue nunc fringilla. Pellentesque eu rhoncus ligula. Nam eros neque, hendrerit a rhoncus vel, molestie nec nulla. Ut iaculis vulputate mauris, non scelerisque dolor fringilla sit amet. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas. Quisque vitae accumsan risus. Sed molestie dictum venenatis. Sed odio justo, gravida et vulputate eu, congue et lorem.
